

GEZER AGRO

EXPORT PLANTS

WHY US?

Gezer Agro is a leading company in its sector, specializing in wholesale spice trading, maintaining its ambitious position for years.

Always prioritizing customer satisfaction and quality, Gezer Agro offers retail customers the freshest and highest quality spices with its extensive product range and robust supply chain.

We are aware of our responsibilities towards our customers and work diligently in this direction.

All our products are produced in compliance with international standards and undergo quality control processes.

This enables us to confidently offer the best to our customers.

At every stage of our products, we ensure quality by using the best materials, adopting modern production techniques, and continuously improving our products with our expert team. We strive to meet and even exceed our customers' expectations.

Our company offers solutions for every spice need with its wide range of products.

Our spices are carefully selected to appeal to our customers' palate with their freshness, aroma intensity, and quality. Additionally, we can respond to special requests and custom blends.

QUALITY AND RELIABILITY

Gezer Agro comes in with decades of experience in the spice industry and a proud track record of consistently honoring its commitments, despite the frequent and often extreme market price fluctuations in our sector. Our production supervisors each bring over fifteen years of specialized experience in their respective product lines. We closely monitor and fulfill the specific quality requirements of each customer, ensuring consistent satisfaction and long-term trust.

Our modern processing facility is equipped with dedicated, state-of-the-art production lines for each product. The plant has been audited and approved by several leading international companies and is considered one of the most versatile of its kind in the region. It includes rare-earth magnet systems, metal detection equipment, and fully implemented HACCP protocols throughout the receiving, production, and dispatch stages — easily complying with

ASTA and other international standards. Products are packed and labeled according to buyer specifications, ranging from 500-gram consumer packs to bulk packaging of 1 ton per bag, tailored to meet the demands of global markets.
